

The powerful
baler twine...

Xpress®
Lemon

...for every baler
pressure range

Elaborately fibrillated twine for

solid performance
in the baler
+
top **flexibility** and
tensile strength

Excellent **knot strength**

Safe and secure during
transport and storage

Fresher Stronger Better

*Continuously refined through direct feedback –
twine you can rely on in any baling situation.*

Benefits of the Xpress® lemon® baler twine:

Finely fibrillated twine for:

- improved knot hold
- better traction (prevents knot slippage),
even under high baling pressure
- more even distribution of tensile forces

Reliable performance in any baler

Excellent knot strength even under increased baler pressure

UV- and weather-resistant for safe outdoor bale storage

Optimized for **maximum performance** – in any baler, for any job

Type	Weight/ Double pack	Weight/ Pallet	Double pack per pallet
PP110	20 kg	960 kg	48
PP130	18 kg	1.008 kg	56
PP150	18 kg	1.008 kg	56
PP400	10 kg	800 kg	80
PP750	10 kg	800 kg	80

Refreshingly different, decisively better
