

Proud to be a

**POLYSTAR**®

PolyStar®  
in action

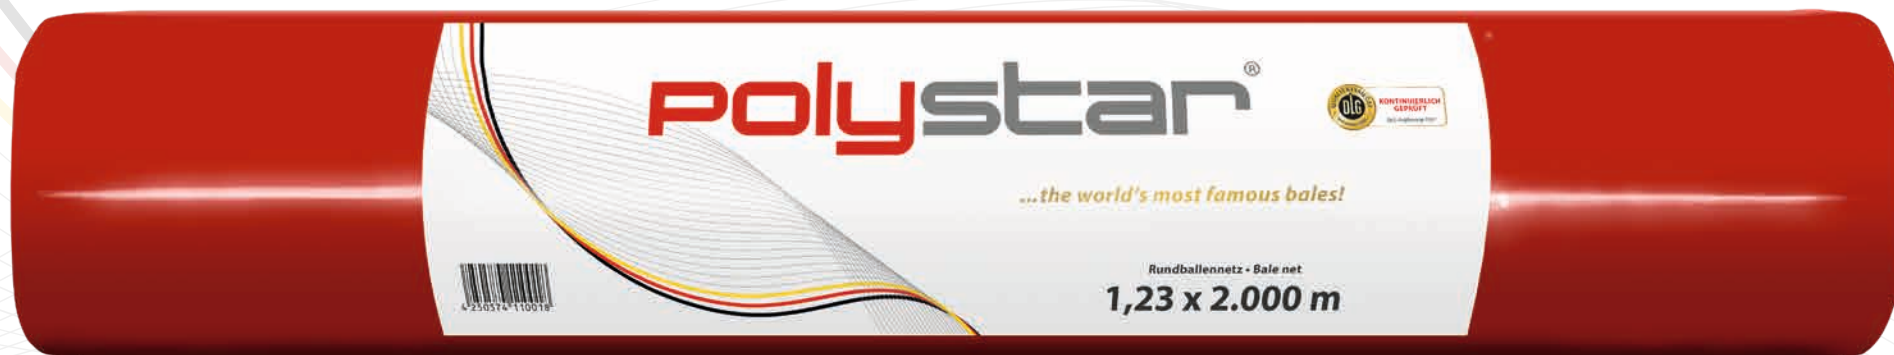

**Best compression  
thanks to edge-to-edge:**

Edge-to-Edge-nets enclose the bale from edge to edge. For beautiful, dimensionally stable, shoulder-free bales – this not only improves shelf life, but also reduces feed loss!

**KONTINUIERLICH  
GEPRÜFT**

DLG-Prüfbericht 7337

- ✓ **DLG quality seal** – continuous testing
- ✓ **High-quality HDPE** for high tear and tensile strength
- ✓ **UV-stabilized with antistatic additive** for optimum performance
- ✓ Excellent bale coverage from **edge to edge**
- ✓ **Uniform wrapping** for clean unwinding
- ✓ **No-Laddering-technology** – no running stitches thanks to specially offset warp threads

The star  
among the nets in  
the Germany colors

Available sizes:

1.23 / 1.25 x 2,000 m (32 rolls/pallet) •  
1.23 / 1.25 x 3,000 m (28 rolls/pallet) •  
1.25 x 3,600 m (28 rolls/pallet)
