

# Windbreak nets

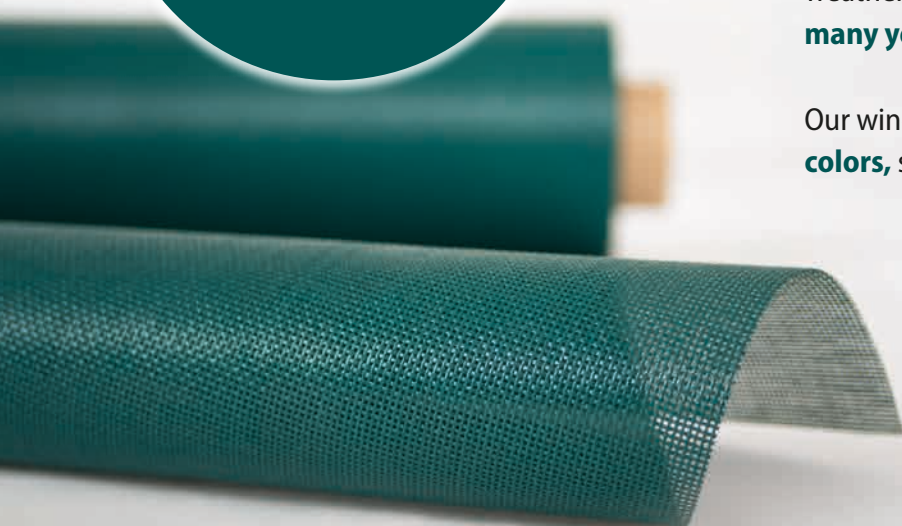

**Strong against wind – flexible to use**

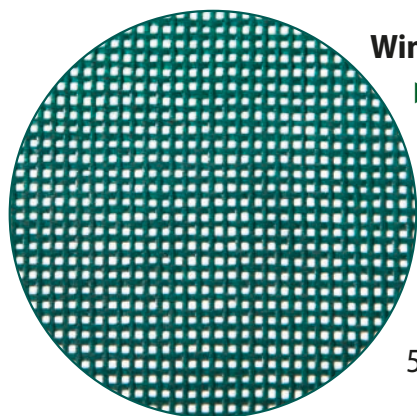

Each net is carefully made and checked. It stands for high quality and works well in farming, building, and leisure.

Stables, balconies, terraces, fences – the Zill windbreak net **can be used in many ways** and is especially good for open stables. **Made from extra-strong PVC fabric** that keeps its shape even with heavy use, the nets resist wind and weather. With UV protection and weather resistance, they give **reliable protection for many years**.

Our windbreak nets come in **different types and colors**, so there is a perfect net for every use.
